

FRXSH[®]

dance the taste

THE MOUSSE CHEF APPLIANCE RANGE

PASSION. IN EVERY DETAIL

You want results that impress your guests, and a device that can keep up. FRXSH represents a new generation of frozen food processors Made in Switzerland. From a team that stands behind its products, thinks ahead, and understands what you really need in the kitchen. At a price that's hard to beat.

FRXSH MOUSSE CHEF

Our masterpiece

Your signature on every plate.
The Mousse Chef lets you control the intensity of flavour, texture and mouth-feel exactly as you wish. And thanks to optional updates via WiFi, it doesn't get older – it gets better.

"FLAVOUR IS MOVEMENT. TEXTURE IS RHYTHM. PERFECTION IS ACHIEVED WHEN TECHNOLOGY MEETS PASSION."

FRXSH dance the taste

FRXSH ESSENTIAL

For every kitchen

The full range of the Mousse Chef – focused on the essential functions. Simple button controls so everyone in your team can get started straight away. Swiss quality runs in the family. At a price that makes it easy for you.

Moussing frozen foods?
Our core expertise!

The Mousse Chef appliance range sets the standard for quality. The FRXSH Mousse Chef takes it even further – for greater precision, creamier results, and more wow factor.

Non-frozen foods?
The full repertoire!

Whipping, chopping, blending: standard features on the Mousse Chef and Essential. With the expanded range of functions on the FRXSH Mousse Chef, you can do even more – perfectly tailored to every dish.

Swiss Made.
And you can tell.

Designed and manufactured in Switzerland: featuring uncompromisingly durable construction, a guaranteed supply of spare parts and first-hand service. Swiss quality that lasts.

TWO APPLIANCE MODELS. YOUR CHOICE

Do you want maximum creative freedom, a touchscreen, intensity control and feature updates via WiFi?

Then the **Mousse Chef** is the model for you.

Do you want classic button controls and to get started straight away – at a price you will simply treat yourself to?

Then go for the **Essential**.

Both are FRXSH. Both are **made in Switzerland**. And both are made for professionals.

FRXSH MOUSSE CHEF

Showcasing what's possible

Frozen food processing taken to a whole new level.
A machine that doesn't limit your creativity – it inspires it.

Intensity: You're in control

Five intensity settings give you control over flavour, texture and mouthfeel. Whether you want a sorbet to be creamier or a mousse to be richer – you decide on the result.

Future-proof: Always up to date

New features and updates? Simply download them via Wi-Fi right in your kitchen. The Mousse Chef continues to evolve and your investment grows with it.

Programmable: Your recipes at the touch of a button

Create once, reproduce anytime. You save your recipe settings in the Mousse Chef and call them up whenever you need them. Consistent results – even when you're not standing at the appliance yourself.

FRXSH ESSENTIAL

Everything that matters

The Essential carries the DNA of the Mousse Chef – moussing, cutting, whipping, frozen and unfrozen. In uncompromising FRXSH quality.

Affordable for your kitchen. Ready for any task

As your entry into the FRXSH world. As a second or third device when demand at your stations grows. As a reliable back-up in catering and banqueting. The Essential is ready when performance is required.

Buttons instead of a touchscreen. Because that's how you like it

You prefer buttons, appreciate the immediate tactile feedback and want a machine that lets your team get started from day one. The Essential makes it easy.

EXTENSIVE RANGE OF ACCESSORIES. FULL FLEXIBILITY

Whether Mousse Chef or Essential:
All accessories of the Mousse Chef
appliance family fit both models.

The FRXSH Mousse Chef and FRXSH Essential are designed for both chromesteeel and synthetic cups.

With the matching FRXSH protective beakers, even chromesteeel or synthetic cups from other appliances in the same product category can be reused. This keeps every option open – for getting started, switching and expanding.
